

MEDICAL AFFAIRS & REAL-WORLD EVIDENCE ASSOCIATE

The company

HealThink is a pioneering consulting firm with international experience in health technology assessment (HTA), health economics, and market access, as well as research and development (R&D) in medical sciences. Our dynamic team has a proven track record of successfully partnering with pharmaceutical, medical device, and digital health companies; universities and research centres; medical societies; and international consortia. At HealThink, we are dedicated to improving care pathways and ensuring that patients and citizens have access to Value-Based Healthcare.

About the Role

We are looking for a motivated and detail-oriented professional to join our team as a Medical Affairs & Real-World Evidence Associate. The successful candidate will contribute to medical and scientific activities across multiple projects, supporting evidence generation, observational research, and stakeholder engagement.

Key Responsibilities

- Provide medical and scientific support for assigned products, disease areas, and projects.
- Conduct systematic and non-systematic literature reviews and evidence evaluations.
- Prepare medical and scientific input for regulatory and HTA submissions.
- Support the development of study protocols and study management.
- Prepare presentations, reports, and publications to communicate project findings.
- Collaborate with cross-functional teams and engage with external stakeholders, including KOLs and HCPs.
- Stay updated on developments in pharmaceuticals, medical devices, and digital health, including regulatory and HTA changes.

Required Qualifications

- Degree in Life Sciences, Medicine, Pharmacy, or related field (BSc/MSc/PhD).
- Strong understanding of epidemiology, observational studies, and evidence generation.
- Experience in literature review, medical writing, or scientific communication.
- Excellent analytical, organisational, and communication skills.
- Fluency in Greek and English.

Desired Skills & Experience

- Experience in real-world evidence (RWE) projects or clinical research.
- Familiarity with HTA, market access, and value communication.
- Interest or experience in digital health initiatives.
- Participation in Horizon projects or other international research projects.
- Ability to work independently and collaboratively within cross-functional teams.

What we offer

- Exposure to cutting-edge medical affairs projects and real-world evidence studies.
- Opportunities for professional growth and international collaboration.
- A dynamic and supportive work environment.
- Work/life balance.

How to Apply

Please submit to healthink@healthink.info your resume, cover letter, a portfolio of relevant work and letters of recommendation regarding your previous occupation.
